

THE DAILY and WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

TUESDAY, SEPT. 21, 1875.  
NEWS OF THE MORNING.

Ballot Box was the winner of the two mile race at Sacramento yesterday.  
The steamer Ancon will arrive to-day with 130 passengers.  
A disease resembling the epizootic has broken out among the horses in New York.  
The storm in Texas has abated. Much damage has been done to property about Galveston, and one or two steamers were driven ashore.  
The actress Miss Clara Morris has reached New York from Europe slightly improved in health.  
Waterbury, charged with the abduction of Charlie Ross, has been convicted in Philadelphia.  
Governor Ames, of Mississippi, is doing all in his power to place the State under military rule.  
The San Francisco Stock Boards have not yet decided when they will resume business.  
The Government has ordered a war vessel to Hayti.

Gold goes up with marvelous rapidity for a substance so heavy. It has already reached 117 in New York and gives no signs of having attained the highest point.

In describing the complexion of the next Legislative a number of our contemporaries class Senator BUSH of this county with the Independents. This is a mistake. Senator BUSH is a Democrat and will go into the Democratic caucus for the nomination of Legislative offices.

CREED HAYMOND an unparalleled trimmer and demagogue was elected Senator for Sacramento county by a majority of ten or twelve. CAREY his Democratic opponent will contest the election on the ground of the illegality of some of the votes cast for HAYMOND. We are not informed as to the strength of the evidence on which CAREY bases his case but we hope it is sufficiently strong to give him the seat. HAYMOND is a renegade Democrat and will not reflect any great amount of credit on his constituents in the Senate or elsewhere.

We desire to call the attention of the City Council to the condition of the river bed opposite the city. The channel is filled up and in many places large bars are formed. Should we have a flood this Winter it is hardly probable a great deal of property in the lower part of the city will escape overflow unless the obstruction in the river channel are removed. Five hundred dollars judiciously expended now while the water is low in deepening the channel will prevent thousands of dollars damage when the floods come.

#### The Genuine Ring.

The Democracy of New York have caught the inspiration of the hour and have laid down the principles upon which they intend to stand or fall, in unmistakable language. A specie basis as quick as possible is the tenet. It was a close struggle. TILDEN or specie payments. It was a choice between a good man and a sound principle. The latter triumphed in the convention as it always does at the polls. Personal popularity, individual integrity, brilliant talents in an enlightened country must not prevail against strong convictions of truth. That hard money plank in the platform is worth the personal influence of a thousand men, even though each were as strong as SAMUEL J. TILDEN. Let the Democracy throughout the land follow the example of the grand commonwealth of New York, and boldly proclaim the true principles, ignoring all considerations of persons. Men are pignies, principles are giants. The influence and power of the one are drummed and evanescent; the other works by night and by day, amid all classes, and in all sections. So we say let the banner cry still be "Measures not men."

#### The Depot Fight.

As the details connected with the location of the Los Angeles and Independence Railroad depot on San Pedro street, come to the surface the chapter of incidents becomes both amusing and interesting. It appears that an effort was made to locate the depot on Temple street and although a considerable ground was offered the railroad company for the purpose, the proposition was not entertained. The Aliso tract at the river end of Aliso street, which is claimed to be nearer the business center of the city and offering superior depot advantages to the location selected, was suggested and five acres of land offered to the company. This was refused, and the San Pedro street property selected. "Why is this thus?" asks the innocent community. Blowing with her thousand pipes is rumored as many different versions, causes, reasons and purposes. We are told that the location is a job by which some people expect to realize a handsome sum. Says rumor, a ring was formed for the purpose of first secretly securing the location of the depot on San Pedro street and then buying and bonding all the land in the vicinity that could be got hold of. The plan worked to a charm from the inception to the Mayor. The people sold or bonded their land in bliss-

ful ignorance of the object of the purchasers; the railroad managers accepted or agreed to accept the proposed site, the Council passed the ordinance and then came a hitch—the Mayor bucked. Dame Rumor says this wonderful progress was not the result of a legitimate business transaction. She furnishes us with the name of one Councilman who was offered one thousand dollars if he would vote for the San Pedro location. He was also assured by another individual that there was money for him in the scheme if he voted for it. This same garrulous old girl, Dame Rumor, has given us a great many other bits of information which if true will warrant Colonel JACKSON, general manager of the Los Angeles and Independence railroad, in refusing to accept the location even though the Council passes the ordinance over the Mayor's veto. This will break up if it does not impoverish the ring who have bought up and bonded the land around the proposed depot and as they have taken the advantage of the people who have owned and paid taxes on this land for the past twenty years, the general verdict will be "served them right."

#### Woman Suffrage.

While in the centres of activity, wealth and learning, the great truths are enunciated by the statesmen and philosophers of a semi-petrified condition of society renders the practice of the theories impossible. Men shudder at violent innovations in the autonomy of government, and vigorously oppose great changes in the social system. Thus it is the tenets which attract the most intelligent, are suffered to remain without zealous disciples in the land of their birth, and community accepts the doctrine and puts it into practice. In the United States all the theories of the statesman and philosopher have found advocates and been readily engrafted upon the new society. Not among the least important question which has agitated the minds of the great thinkers of the present century is the social status of woman. In the progress of human events she has emerged from the condition of a slave nearly, to that of an equal, but the final step, the complete emancipation of the sex, her elevation to an equal share of the government is far from being accomplished, and, in fact, is so heartily opposed by the great majority of mankind, even in the New World that the weakest demagogues have scarcely considered it worth their advocacy. It remained for Wyoming to put to actual test the question of woman suffrage. That territory carved out of the desert and peopled by a rough class of men in whose breast we should scarcely expect to find a refined appreciation of woman was the first to bestow absolute and perfect equality upon her. In the land just snatched from the grasp of the savage by the hardy pioneer the most delicate question of the day is being put fairly to the test of experience. The world will anxiously watch the effect. The philosopher and the statesman will gaze eagerly for a surer solution of the problem than theory could ever supply. Intellectual women all over the world will anxiously watch the conduct of their sex at the ballot box and in the halls of justice. There shall the world learn whether the administration of the laws has become purer, whether men are elevated in their public conduct as they are in private life by the presence of women, or whether the moral status of woman is limited by her too liberal contact with her baser partner. We are to learn from Wyoming whether man is ennobled or woman debased by her joint proprietorship of freedom. It is a momentous question, and will be settled for the near future at least by the little commonwealth in the Western wilds. We all want a purer government, and none would sanction any movement to demoralize the female sex. Of course the experience of a few months cannot settle the question. On so momentous a problem we desire abundant evidence. While not therefore for a moment claiming that sufficient time has yet elapsed for a fair trial we may nevertheless appropriately call attention to the result of female suffrage thus far, and we are free to say it is beyond our expectations. The Laramie Sentinel points out the changes that have taken place in Wyoming in the last six or seven years, though not claiming that they are altogether due to female suffrage. It points to facts only as follows.

We never had a term of Court here held in a decent and comfortable place, with its proceedings marked throughout with decency and decorum, and divided of everything pertaining to levity and blackguardism, till we had a grand jury composed largely of ladies.  
We had several terms of Court, but had scarcely been able to convict or punish a single criminal for any crime, however heinous, through the medium of those Courts, till we got a grand jury composed largely of women.  
We did not have a single election here without drunkenness, rowdiness, quarrelling, fighting and bloodshed, until our wives, mothers, sisters and daughters were permitted to accompany us to the polls. We well remember the time when many a man stayed away from the polls, losing his right of citizenship rather than encounter the danger and rowdiness he met in order to exercise it.  
But all this is changed. Our elections go on as quietly as any other social gathering, no matter how heated a political campaign may be, or how important the issues at stake. And we all point with pride to the result, whether or not we agree as to the cause which has produced it.

Tremendous storms have prevailed all through New Mexico for the past ten days and the town of Las Cruces was nearly destroyed by what is called the bursting of a waterspout. Much damage has also been done to the wheat crop by the continued bad weather.

#### LETTER FROM RIVERSIDE.

Gaiety at the Riverside. A silver wedding—A Ball—A Liberal Pastor—A Talented Musician—The Lyceum—Quite a shower—Orange culture—Activity in Real Estate.

EDITOR HERALD:—We plead guilty to a little gaiety during the hot Summer months. While New England people are hurrying from mountain to seashore to find shade and recreation, some of the people here have been cool enough to entertain friends.

SILVER WEDDING.  
One happy couple rejoicing in the twenty-five years of wedded life, invited all Riverside nearly, to see parson Loup make stronger their bonds. Among other refreshments, cake twenty-five years old, preserved from the first wedding was passed around, and the manner in which the unmarried guests carefully wrapped up the article indicated faith in the power of this aged wedding cake to produce almost real dreams of wedded bliss.

A BALL.  
A Ball too in honor of our first brick edifice indicates that Riverside is still alive.

Last night there was a sociable at the Congregational Church, a goodly number present. Conversation and music were the prominent features of the evening. Rev. F. H. Wales our new Congregationalist Minister was present and actively engaged in promoting the social as well as the musical.

A TALENTED MUSICIAN.  
E. G. Brown Esq. whose musical proficiency is second to none in these regions, was here. Riverside feels proud of Mr. Brown's musical talents and his hearty willingness to loan it to enliven our feasts.

OUR LYCEUM.  
Allow me to add that our Lyceum has revived again with Mr. B. as President and Walter Lyon Secretary with a corps of talented members which must make this institution quite interesting.

THE LATE RAIN.  
We have had a very nice little rain washing the foliage of trees and giving everything verdant a clean healthy look, to some perhaps depending upon the dry feed the rain was not so refreshing. Such is life.

ORANGE CULTURE.  
Quite an interest has been taken among the Fruit Growers of this vicinity in the new variety of Oranges quite recently introduced in Southern California. Many of our orange orchards have been and are being with the Konab, St. Michaels, Malta Blood, Acapulco, Valparaiso and Australian seedless. The length of growth which some of these buds have made for the past three months indicate a vigorous variety, if nothing more.

LAND SALES.  
Purchasers are buying up quite rapidly the undisposed and valuable lands of Riverside. Six months will show a great change and progress here.

Yours, G. W. GARDNER.

BY ATLANTIC AND PACIFIC LINE.

[SPECIAL TO THE HERALD.]

#### PACIFIC COAST.

For Los Angeles.

CALIENTE, Sept. 20.—The following passengers left on Telegram State line for Los Angeles to-day: J. M. Heilman, N. S. Head, E. S. Rhodes, Doughtie & Doughtie, M. Byers, A. M. Durnell, Mrs. Loss, General Robinson Johnson.

San Francisco News.

SAN FRANCISCO, Sept. 20.—The Pacific Stock Exchange held a business meeting to-day. It was decided that the general interest demanded that the Board should not open for regular business this week, but that arrangements were made for opening the Board Room and allowing members to assemble there for the transaction of private business between themselves, or in the interest of their clients. A resolution was passed providing that in all contracts to mature a delay of five days shall be allowed. At the meeting of the San Francisco Board of the action of the Executive committee, call upon members to make good their contracts to-day, was ratified, but the time was extended some few days further.

Nothing new of importance has transpired in the affairs of the Bank of California. The Syndicate guarantee that the subscription now amounts in round numbers, to seven and a half millions.

The transfer of the assaying and refining work has not yet been consummated, and it is said that a division of opinion exists among the Directors as to the expediency of making the transfer, some holding that the bullion production of the Ophir will be sufficient to keep the works employed. It is understood that all the arrangements for the sale have been completed except the final transfer.

The Coroner's Jury, to-day, at the inquest on the body of Pat Coffey, shot and killed by Officer Waite Saturday last found a verdict of justifiable homicide on the part of the officer.

The remains of the man who suicided by throwing himself under the cars of the Southern Pacific Town and Country street yesterday morning, have been identified as those of Rudolph Michelson, a florist in the employ of the Pacific Nursery.

The Supreme Court to-day affirmed the judgment of the Municipal Court in the Marks case.

On the last trip hence for San Diego, the steamer Mohongo had a narrow escape from running on to the rocks near Point Conception, during the prevalence of a heavy fog. The captain thought he had passed the Point, and was standing in for Santa Barbara, when a gentleman, a physician from Boston, fortunately sighted land under the bows in time to prevent the catastrophe, which a few minutes would have rendered inevitable.

Last night about eight o'clock, a man named James Hoey had a dispute with one Cornelius Carney, on Mission street, near third, which culminated in Carney stabbing Hoey in the left side with a knife. Officer Green was in the vicinity and said Carney when off with a special watch set pursuit at defiance. A shot over his head

would doubtless have brought him to, but the officer prudently refrained, having his doubts as to the result of a case pending before the Coroner, involving the privileges of policemen in such contingencies. Hoey was committed to the prison hospital, where the wound was found not to be dangerous, though pretty severe.

#### MORNING DISPATCHES

2:30 A. M.

[SPECIAL TO THE HERALD.]

Races at the State Fair.

SACRAMENTO, September 20th.—The second race was for a purse of \$600, two mile heats. The starting was by Theo. Winter's b s Ballot Box, R. T. O. Hanlon's b f Fannie Hall, R. L. Croys' b m Irene Harding, and H. Welsh's b s Hardwood. The start was even and the race throughout a good one. Irene led to the first half in 53. At the stand in the first mile Ballot Box was ahead by a neck in 1:43, closely followed by Fannie Hall, Hardwood and Irene being neck and neck, and close up at the mile and a half post the little horse had gained many lengths, which he maintained until near the string, when he slowed up for the company of little Irene and Fannie Hall, who came nearly even for the second place, Hardwood being far in the rear. The announcement was Ballot Box first, Fannie Hall second, Irene third, Hardwood distanced; time 3:47.

The second heat was an easy victory for Ballot Box. At the tap off he and Irene Harding opened the fight, and when at the half mile in 51 she found further effort useless. She resigned the contest to Fannie Hall, who also made a fruitless effort to gain the front and fell back in a struggle with Irene for the second place, in which she was successful, Ballot Box having generously allowed up to give them a position, without which he would have distanced both. This ended the day's sport and two mile race in favor of Ballot Box, Fannie Hall second, Irene third and third money; time, 3:47.

#### EASTERN NEWS.

A War Vessel to Hayti.

WASHINGTON, Sept. 20th.—The U. S. steamer Powhatan, now at New York, will leave there this week for Port au Prince, Hayti, in accordance with a request from the State Department. During some troubles on the island a short time ago the American minister there gave shelter to some of the parties, in consequence of which their adversaries threatened the Minister, and the Department deemed it expedient to hold a vessel there for protection, if necessary.

Damages by the Storm.

NEW ORLEANS, Sept. 20th.—The steamer Margaret, which left Galveston yesterday morning arrived yesterday at Brashear and reports the East end of the Island washed away and the inhabitants barely escaped, but they are powerless and have lost everything. Thirteen laborers on the breakwater are missing. Vessels in port worked incessantly.

Drifted Ashore.

NEW ORLEANS, Sept. 20.—Steamship Australia, British, shipped her anchor in a hurricane off Galveston, on Thursday, and Friday became unmanageable and drove ashore forty-four miles from Galveston, in ten feet of water, where she remained at last accounts. No lives lost.

What the Attorney General Says.

WASHINGTON, Sept. 20.—Attorney General Pierpont says that the letter to Governor Ames was intended to show that the Federal troops would not be called out except in strict accordance with the constitution and laws after the State had used its own resources; but if forced to the necessity the Executive government would indulge in no leniency toward lawless disturbance of the public peace, or murder of innocent men.

Another Insurrection.

VIENNA, Sept. 19th.—An insurrection has broken out at Tychowal, near Grochow. The insurgents burned the Turkish guard house and the garisoned. The insurrection is said to be spreading into Western Bosnia and it is rumored that preparations have been made for a general rising.

#### CONDENSED TELEGRAMS.

The insurrection in Eastern Herzegovina is increasing.

It is estimated that \$2,000 will cover all losses by the storm in Southern Texas. Commander Morgan's fleet of dredge boats are reported driven ashore and a number wrecked.

Twenty-four French Archbishops and Bishops have issued a circular appealing for the exertions of the Catholics in behalf of the Catholic University in Paris.

The following changes in the Turkish Cabinet are announced: Risi Pacha to be Minister of Marine; Keduberg to be Minister of Public Works.

A New York dispatch of yesterday says: It is expected that the case of Tilton vs. Beecher will be called from the calendar of the City Court this morning, by Judge Reynolds. Mr. Morris of counsel for Tilton, will answer that he will be ready within a few days.

A telegram dated New York, Sept. 20th says: A serious disease has broken out amongst the horses throughout the city. It borders on the nature of the famous epizootic of two years ago. It is calculated that there are 10,000 horses suffering, the symptoms being precisely the same as those manifested when the epizootic first showed itself.

The Richmond Iron Works, at Stockton, upon the Tees, comprising twenty-six furnaces and rolling mills, and employing 800 hands has suspended. The concern is insolvent.

In compliance with the earnest desire of Prince Milan, the delegates of the committee appointed to consid-

er the address in reply to his speech, will be submitted to the Chamber of Deputies in secret session. The debates in the Chamber will also, at the request of the Prince, be kept secret.

Angora Goats.

The Sutter Creek Ensign says: Messrs. Carey & Myers have been engaged for several years in raising goats in this and the adjoining county of Calaveras. Myer's range is about four miles from Sutter Creek, and that of Carey is in Salt Spring Valley, in Calaveras, thirty-five miles distant. Latterly their goats have increased to such an extent that the range became overstocked, and they were compelled to reduce their herds. On Saturday last they drove a band through Sutter Creek of 1,000 head, which they intend to take to Southern Oregon to sell. They are of the Angora kind, suitable for breeding, and among them are many fine bucks. The owners inform us that they have found the business of goat breeding a very profitable one. They find a ready market for the mohair in San Francisco at \$1 per pound. From San Francisco the mohair is shipped direct to the alpaca works at Jamestown, N. Y., and there converted into fabrics. As much as 50,000 pounds of mohair has been shipped from this State this season.

#### NEW TO-DAY.

WANTED.—A strong, healthy woman as chambermaid and to wait on table, at the Kimball mansion, New High street, near the Congregational church. sept12-1w

#### GUT HEIL!

FIRST GRAND  
Gymnastic & Musical Exhibition  
OF THE  
TURN-VEREIN GERMANIA  
Of Los Angeles, under the supervision of  
Prof. Louis Gerichten.  
—AT—  
TURNER HALL, SPRING STREET,  
Tuesday, Sept. 28, 1875.

For particulars see hand-bills. After the performance the hall will be cleared for  
A DANCE.

Admission—50 Cts.  
Reserved seats 25 cents extra, to be had at Lewis's Book Store, Temple Block, Spring street.  
Doors open at 7:30. Performance commences at 8.

Mrs. AUSTIN & Mrs. WOOD,

#### NEW MILLINERY STORE.

Spring Street, Opposite Temple Block.

Mrs. Hammond has just opened a New Millinery Store at the above place, and will keep constantly on hand a choice assortment of the latest styles of goods. Particular attention given to the making of hats. Also a choice assortment of Pattern Hats and Bonnets constantly on hand. self

#### A BARGAIN.

FOR SALE.

The Ranch known as Lyons' Station, situated on the other side of the San Fernando cut and one-half mile from the great San Fernando tunnel, containing 381 acres of land, of which 100 acres are suitable for growing orange, lemon, lime and other tropical fruit. There are also numerous flowing streams of pure, crystal water sufficient to irrigate 100 acres of land; also, two houses, one containing 3 rooms, all furnished, and the other four rooms and bath, also one barn and stable, the barn having storage facilities for 300 tons of hay. Also containing over 6,000 cords of the best firewood which can be made available as soon as the tunnel is completed. It is also adapted for tourists and invalids, as the climate is unequalled in Southern California. For particulars and to see the place, apply to J. A. COVODE, corner of Main and Huguena Streets, or Box 55, Los Angeles P. O. sept12-2w

#### NEW TO-DAY.

Dr. ABORN

OF SAN FRANCISCO.

WILL BE AT THE

Backman House,

LOS ANGELES,

For About Two Weeks,

—COMMENCING—

SATURDAY, SEPTEMBER 25th.

#### THROAT AND LUNG

DISEASES,

CATARRH!

DEAFNESS,

DISCHARGES FROM THE EARS,

—AND—

All Affections of the Eye, Ear, Nose, Throat and Lungs. Also Derangements of the

Nervous System,

—AND—

BROKEN-DOWN CONSTITUTIONS

Treated with the most gratifying success.

The Modern System of Cure as Practised by

DR. ABORN.

MEDICATED INHALATION

Used in conjunction with his local and constitutional treatment, has proved the most rational and successful method of treating

CONSUMPTION,

Asthma and Bronchial Affections.

As he is effecting cures even after the ordinary methods have failed.

All who have suffered for years for life, and whose diseases have resisted or baffled the ordinary modes of treatment, are invited to call for a free consultation.

Testimonials from well-known prominent Congressmen.

From Hon. James A. Johnson, ex-Member of Congress, Cal.

WASHINGTON, D. C., Feb. 23, 1882.

TO WHOM IT MAY CONCERN: Having been a sufferer from catarrh and a severe bronchial affection for more than seven years, and having found great relief by submitting myself to Dr. ABORN's treatment for a few days only, I take pleasure in recommending him to all who are afflicted with any of the above named ailments. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally.

JAMES A. JOHNSON, M. C.

It is now over six years since Hon. James A. Johnson was cured by Dr. ABORN. He has gained twenty pounds in weight, and has had no traces of the catarrh or bronchitis since. This speaks well for the permanency of the cures effected by Dr. ABORN.

From Hon. S. O. Houghton, Member of Congress, California.

SAN JOSE, November 23, 1882.

I have been afflicted with severe nasal catarrh for two years, which a few months since extended to my throat, producing a distressing cough and seriously interfering with my health generally. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally. I have been under the treatment of Dr. ABORN for about three weeks, and have seen a great improvement in my health generally.

S. O. HOUGHTON, M. C.

By reference to Hon. S. O. Houghton's card it will be apparent that it is now over six years since he was treated by Dr. ABORN. He has gained twenty pounds in weight, and has had no return of the complaints since.

From Hon. John Covode, Member of Congress, Pennsylvania.

WASHINGTON, D. C., June 12th, 1882.

FOR more than a year I suffered, inconveniently from deafness and a constant sounding in my ear. On the 21st of May I applied for relief to Dr. ABORN, and after a few days' treatment, and from that day to this I have had no difficulty of any kind with my hearing. Truly, JOHN COVODE, M. C., PA.

Dr. ABORN can be consulted at the Backman House, Los Angeles, for about two weeks, commencing September 25th. sept12-1w-1f

## Special Notices.

1. Hatch, Merchant Tailor, No. 4 Commercial street, Ducommun's Block. 184 ft

Be cheerful!—The important is again in the field, has again replenished, and will sell goods at their old prices, as they only believe in selling goods at low prices, and make quick sales and small profits. Their clothing and Dry Goods stock is complete, and 25 per cent cheaper than any other house in Southern California. So give them a call and you will be sure to be pleased with your bargain. 184 ft

The ever popular Barnett Bros. are doing a rushing business in their two-story store, and it is quite natural that they should, for they keep none but good goods, are obliging and attentive to their customers, and sell at reasonable prices. The store is located at No. 12 Spring St. and 75 Main St. respectively. Give them a trial. 184 ft

Furniture for the East is now being offered at greatly reduced prices, owing to the low freight rates. Go and examine it at John Hansen & Grosser's Furniture and Bedding establishment, 34 Main street, cor. Commercial. 184 ft

New Bed Sets, of improved construction, for comfort and ornament. Nothing better than them. Go and see for yourself, at John Hansen & Grosser's Furniture and Bedding establishment, 34 Main street, cor. Commercial. 184 ft

F. Adam, merchant tailor, has just received an elegant lot of cloths, cassimeres and suitings of the latest popular patterns. The stock is probably the largest of its kind to be found in the city, and no one can fail to be suited in making a selection. Call on F. Adam, Spring street, for your stylish suit. 184 ft

The Express Clear Dept., adjoining Wells, Fargo & Co., has on hand the best brands of imported and domestic cigars, smoking and chewing tobacco, and all the accessories. The patronage of the public is respectfully solicited. GEO. PRIDHAM. 184 ft

Prof. L. Gerichten, late teacher of the Olympic club, San Francisco, will instruct a class in boxing, fencing and gymnastics every day from 8:30 to 6 P. M., at Turnverein Hall. Terms reasonable. 184 ft

Very rich and elegant Parlor Sets have just been received from New York by John Hansen & Grosser, at their warehouses in Ducommun's building, cor. Main and Commercial Streets. 184 ft

One dozen wagons, assorted sizes and kinds, for sale at reduced prices at Standard's hardware store, 78 Main street. 184 ft

Silver and gold plating; electroplating; ivory and metal turning; glass and metal drilling. Locks, keys, seals and key-chests, steel and door-plates made to order. Knives and surgical instruments ground and sawed filed and set; parafins and waxes mended; musical instruments repaired; mechanical pipes cleaned and mounted; model making and repairs on all fancy work and machinery, from pin to a locomotive. All kinds of sewing machines bought, sold and repaired. Come and see the new sewing machine engine. Sewing Machine Exchange, 39 Spring St. 184 ft

Moore's Restaurant, on Commercial street, is the proper place to go for good meals, with a good cup of coffee or tea to drink with it. There is probably no restaurant on the Pacific coast where so many of the substantial and so many of the luxuries may be had for 25c. Don't forget the place—Moore's Restaurant, Commercial street. Private dining rooms have been newly fitted up for the accommodation of ladies. 184 ft

The principal organs of sense are concentrated to the face. It is therefore worthy of being crowned by gentlemen, with the aid of the superior hair which can be had at DeLeon's, Main Street. 184 ft

## ANNOUNCEMENTS.

For Justice of the Peace, JOHN TRAFFORD will be a candidate for re-election for Justice of the Peace of Los Angeles Township at the next ensuing Judicial Election, on October 30th, 1875. 184 ft

A. KOHLER Announces himself as candidate for the office of Justice of the Peace. 184 ft

W. H. H. GRAY Announces himself as a candidate for re-election to the office of Justice of the Peace for Los Angeles Township, at the ensuing Judicial Election. 184 ft

For Justice of the Peace, FRANCISCO BUTLER 184 ft

For Justice of the Peace, PEDRO C. CARRILLO 184 ft

## WANTS-LOST-FOUND.

WANTED.—A situation is desired by a German lady to do general housework in a respectable family or a hotel. Address this office. 184 ft

WANTED.—One first-class hand turner; also a first-class machine hand or cutter in a wood-working establishment. Call at this office. 184 ft

WANTED.—In a good manufacturing business, a partner with from \$2000 to \$10000. Address Box Herald office. 184 ft

WANTED.—Situation by a man and wife. The man is a first class cook, wife as second, or chambermaid. Both have many years experience in hotel in California. Call at address Mr. Cook, this office, or at Wright's boarding house, Main St., Los Angeles. 184 ft

WANTED.—A practical man to engage in the manufacture of pottery on most liberal terms. For particulars apply to WALKER & MCKENNEY, 6 Arcadia Block. 184 ft

## GOLD REPORT.

SAN FRANCISCO SEPT. 17.

Gold, 104 1/2.

Greenbacks—Buying, 84 1/2; Selling, 85.

## LOCAL BREVITIES.

United States Deputy Marshal Dunlap has returned.

Shominae Tribe, I. O. R. M. hold a social meeting on this evening.

A chambermaid and waiter is wanted at the Kimball mansion.

Messrs. Barbee & Gates killed 85 quail on Sunday near San Fernando.

The San Bernardino train leaves hereafter at 2:30 P. M. instead of 3 o'clock.

The bids for building the San Pedro street depot will not be opened until Monday the 28th inst.

The steamer Los Angeles with 95 passengers arrived at Santa Monica on Sunday at 4 P. M.

The train for Colton will hereafter leave at 2:30 P. M. instead of 3:00 as heretofore.

Work has been commenced on Cardona's new block on Main street. It will be pushed rapidly forward.

The members of the Christian church held a revival meeting near Downey on Sunday.

There will be a social reunion of the Shominae Tribe I. O. R. M. this evening. Every member is expected to be on hand.

Mr. H. Fleischman will open an office to-day for the agency of the Hamburg and Bremen Steamship company.

Mr. George B. Davis and Miss. Flora Davis, his daughter, celebrated their 51st and 11th birthday respectively, on Sunday.

The steamer Ancon arrives from San Francisco to-day with a large number of passengers and 800 tons of freight.

Col. J. Q. A. Stanley was exhibiting an apple yesterday grown on a four year old tree which weighed 18 pounds.

In our report of the case of Messrs. Page & Gravel we made a mistake by saying that the defendants were to go to the State Prison. It is the other way.

Lewis & Co. have just received a stock of new novels from the pens of the most popular writers of England and America.

Among the shipments yesterday were 150 joints artesian pipe to Anaheim; 30 boxes of wool to San Francisco; 20 sacks of flour to Downey.

Among the recent shipments from Santa Monica were 34 cases of honey from the Monte Vista Rancho, shipped by the Woman's Bee Company.

During the absence of Mr. Burns in San Francisco, Col. Albert J. Johnston is acting Secretary of the Southern District Agricultural Association.

Dr. Aborn the well known specialist, will be in Los Angeles in a few days. His arrival will be promptly advertised.

Gold in New York yesterday was 116 1/2 per cent premium. Greenbacks bought at 85 and sold at 86 1/2 in this city.

We are informed that the sale of seats at the Synagogue on Sunday was well attended and good prices were realized.

The steamer Ancon left Santa Barbara at one o'clock this morning with 130 passengers for Los Angeles. She will reach San Pedro at 11 o'clock to-day.

The number of breweries in Anaheim and the bibulous character of its citizens make water girls a necessity and we understand the importation of water girls from Germany has commenced.

The first of a series of gymnastic and musical exhibitions will be given Tuesday evening at Turn Verein Hall. It will be under the supervision of Prof. Gerichten. After the entertainment a dance will be given.

We take pleasure in referring our readers to the advertisement in today's issue of Mrs. Austin and Mrs. Wood, dressmakers. They have purchased a new building and have moved to the new building, and will continue at the same place in San Francisco.

Mr. Crawford informs us that the new engine of the Los Angeles and Independence railroad will be put on the track Wednesday and that track laying will be pushed forward in earnest. The Council should decide on some location for the depot as that is all that keeps the road back now.

The Turn Verein Concert on the 28th promises to be one of the most successful of the season. All of our most talented amateurs have volunteered and the programme is very choice. Anything that our German friends engage in is sure to be first-class, and this concert will be up to the usual standard.

A dead horse has been lying on Pico street since last Saturday morning. The police and the health officer have been notified but the carcass still remained at a late hour last night. The stench is intolerable for a mile or so around that dead horse. Whose business is it to see him decently interred?

The San Francisco Ledger of Thursday says: Yesterday, in the United States District Court the case of Francis Mora vs. John Foster, was submitted on brief on file. This is an action in ejectment, commenced on the 14th of January, 1873, to recover possession of the Mission San Juan Capistrano, in Los Angeles county, and for \$5000 yearly rent and profits.

## WHAT DOES IT MATTER.

BY WM. ANDREW SIGOURNEY.

It matters little where I was born, or if my parents were rich or poor; What matters is that I am a man, and hold my integrity firm in my clutch, my my brother, plain as I can, it matters much!

It matters little how long I stay in a world of sorrow, sin and care; Or live till my bones of flesh are bare; But whether I do the best I can, to soften the weight of adversity's touch, On the faded cheek of my fellow-man, it matters much!

It matters little where my grave, or whether I live or am laid away; But purring brook, 'neath stormy wave, it matters little or naught to me; But when the angel of death comes down, And marks my brow with his loving touch, As one that shall wear the victor's crown, it matters much!

(—Packer's Monthly.)

We have received a card of the old Mansion House, Leavenworth, Kansas, well known to all Kansas immigrants to California, and see that it is now under the management of our old friends Thomas Leonard and P. H. Madden. We wish them and the Mansion great prosperity.

Mr. M. Ward, State Delegate of the Ancient Order of Hibernians, has been successful in organizing a Division of that order in this city. A large number of members have joined, who have elected permanent officers for the ensuing term, viz: County Delegate, Daniel Doherty; President, Martin J. Golden; Vice President, J. B. Flynn; Recording Secretary, Wm. Farwell; Financial Secretary, Peter Ludysey; Treasurer, Richard Molony.

Mr. Herdman's house, about four and a half miles from the court house, on San Pedro street, was entered during his absence in town on Saturday evening, and a dress suit, a walking suit, several blankets, a double barreled shot-gun, a horse, saddle and bridle taken. On his way home Mr. Herdman thought he had been robbed, but did not recognize the property, owing to the darkness. The thief has not so far been discovered.

An evidence of the prosperity of Los Angeles was brought to our notice yesterday. A friend of ours owning a vacant lot costing, a few years ago two or three hundred dollars has rented a small fraction off to a Chinese wash-house for fifteen dollars per month, nearly as much as the whole lot cost a short time ago. At this rate the property will pay much better than to use it for residence property.

Irene Harding, winning the two-mile dash against Ballot Box, the game son of Norfolk, and Tommy Gates, the property of Col. L. J. Rose, by Moor, dam a half-bred, trotting his seventh heat in 2:37 1/2, is something for congratulation. There is some talk that Irene is to run in the three-mile dash, on Thursday, 23d. The purse is \$750, and Mr. Winters adds \$500 to any horse beating Norfolk's time, 5:27 1/2. She will have to run against such horses as Hardwood Henry, Waterford and Hook Hocking. There are those who will bet her a hit against such a field as the above, but the cooler heads think her over-matched in that race. On Wednesday the great three-year-old "Spirit of the Times" Colt Stake will be trotted for. Los Angeles has two colts entered that will start in the race, Col. J. B. Beardsley's beautiful Belle, by Moor, and Mr. Titus's Echo, by Echo, three other colts from the upper counties. We notice much interest in this race. Quite a number of bets have come under our notice—one this morning, between two of our prominent men. The odds in this bet were \$30 to \$20. Pools are to be sold at the Fashion Saloon this week on all the races in which Los Angeles horses trot or run.

Mr. Elmer W. Holmes, late of the Herald job department, has been heard from. He has bought a nice little farm at Riverside, and has turned Cincinnati. He writes us that he has five acres plowed and irrigated and partially planted. He is about putting out 1500 lime and orange trees, 500 strawberry plants, and the usual complement of roses and grapes. The climate he reports very salubrious and his health improving. He is evidently determined never to test again the rigor of an Arctic Massachusett winter, and he is sensible in that.

Yesterday morning about 7 o'clock, as Mr. T. Templeton was driving past the corner of Third and Spring streets, he discovered a savage yellow dog attacking a woman. Before Mr. Templeton could reach the scene, the dog had torn her dress almost off and severely bitten her lower limbs. Mr. Templeton beat the dog off with stones and in return received a severe bite on the owner of the dog, a Mexican, who had been calmly watching the brute's attack upon the woman, from horseback. The brutal owner would have been arrested, but he immediately rode off followed by his dog.

We observed in Starbuck & Butler's window yesterday, a fine lithograph of the Centennial buildings. It is the only picture yet exhibited here which shows these magnificent buildings complete in all their colossal dimensions. It is the property of Mr. H. W. Butler, of the firm of Starbuck & Butler, and was sent to him by his relative, Mr. Frederick Wilcox, of Philadelphia, a member of one of the Centennial committees, and largely interested in the success of the Centennial Exhibition. As a work of art it is unapproachable, and as it gives the Exposition Buildings in all their commanding beauty, it is well worth an inspection. The official dimensions of these iron and glass structures are as follows: Art Gallery, 365 by 210 ft., containing one and a half acres; Main Building, 1850 by 464 feet, containing twenty-two acres and forty-seven hundredth; Agricultural Hall, 820 by 540 feet, containing ten and fifteen-hundredth acres; Machinery Hall, 1402 by 360 feet, containing fourteen acres; Horticultural Hall, 360 by 160 feet, containing one and a quarter acres.

The following, from the Sonoma Democrat, in regard to the wine crop, will be interesting; though we believe the production of Los Angeles county is underestimated:

The wine crop of this State increases each year in importance. We have gathered from different sources statistics which afford sufficient data to base a calculation as to the probable product of this year's vintage. The production of the State this year will be at least 8,000,000, divided about as follows: Sonoma, 1,000,000; Los Angeles, 800,000; Solano, nearly 500,000; Napa, 500,000; El Dorado, 600,000; Yuba, 500,000; Auburn, 400,000; Yuba, Sacramento and Marysville, 1,200,000; Colusa, 300,000; Santa Clara, 500,000; Santa Barbara, Ventura, San Bernardino, San Luis Obispo, Monterey, Tehama, Lake and other counties not enumerated, say 1,000,000, making the total above given. Sonoma is the largest wine producing county in the State, having last year for the first time exceeded the product of Los Angeles. In the next few years a large number of vines will come into bearing, increasing the present production almost one-half. The vintage here promises well. It will commence in a few days and is two weeks sooner than last year.

SAUCES, PICKLES, PATES,

(American, English and French),

Etc., Etc., Etc.

THIS is the best assortment store in Los Angeles. Mr. Stiebel, the proprietor, was formerly engaged in business in this city with the deceased Mr. Yarrow, who has been in business in the counties of Los Angeles and San Diego for the past fifteen years.

## WOOD, WILLOW AND HARDWARE

IN STORE.

## BANK NOTICE.

OWING TO THE DIFFICULTY OF obtaining gold coin for immediate demands in our home market and the impossibility of that coin route from the East to reach us; this, coupled with a reluctance to press our customers and bring upon our community unnecessary disaster, we are compelled to close our respective banks for thirty days from date.

We regret the necessity that leads to this step, but the extraordinary occurrences in our commercial metropolis, that compelled similar steps by some of our oldest financial institutions, will, we trust, be our apology. Every dollar will be paid our depositors in gold coin and with all possible dispatch.

THE DAILY and WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

TUESDAY, SEPT. 21, 1875.

## NEWS OF THE MORNING.

Ballot Box was the winner of the two mile race at Sacramento yesterday.

The steamer Ancon will arrive to-day with 130 passengers.

A disease resembling the epizootic has broken out among the horses in New York.

The storm in Texas has abated. Much damage has been done to property about Galveston, and one or two steamers were driven ashore.

The actress Miss Clara Morris has reached New York from Europe slightly improved in health.

Westcott, charged with the abduction of Charlie Ross, has been convicted in Philadelphia.

Governor Ames, of Mississippi, is doing all in his power to place the State under military rule.

The San Francisco Stock Boards have not yet decided when they will resume business.

The Government has ordered a war vessel to Italy.

GOLD goes up with marvelous rapidity for a substance so heavy. It has already reached 117 in New York and gives no signs of having attained the highest point.

In describing the complexion of the next Legislature a number of our contemporaries class Senator BUSH of this county with the Independents.

These same Senators BUSH is a Democrat and will go into the Democratic caucus for the nomination of Legislative offices.

CREED HAYMOND an unparalleled trimmer and demagogue was elected Senator for Sacramento county by a majority of ten or twelve.

CAREY his Democratic opponent will contest the election on the ground of the illegality of some of the votes cast for HAYMOND.

We are not informed as to the strength of the evidence on which CAREY bases his case but we hope it is sufficiently strong to give him the seat.

HAYMOND is a renegade Democrat and will not reflect any great amount of credit on his constituents in the Senate or elsewhere.

We desire to call the attention of the City Council to the condition of the river bed opposite the city.

The channel is filled up and in many places large bars are formed. Should we have a flood this Winter it is hardly probable a great deal of property in the lower part of the city will escape overflow unless the obstruction in the river channel are removed.

Five hundred dollars judiciously expended now while the water is low in deepening the channel will prevent thousands of dollars damage when the floods come.

## The Genuine Ring.

The Democracy of New York have caught the inspiration of the hour and have laid down the principles upon which they intend to stand or fall, in unmistakable language.

A specie basis as quick as possible is the tenet. It was a close struggle. TILDEN or specie payments. It was a choice between a good man and a sound principle.

The latter triumphed in the convention as it always does at the polls. Personal popularity, individual integrity, brilliant talents in an enlightened country must not prevail against strong convictions of truth.

That hard money plank in the platform is worth the personal influence of a thousand men, even though each were as strong as SAMUEL J. TILDEN. Let the Democracy throughout the land follow the example of the grand commonwealth of New York, and boldly proclaim the true principles, ignoring all considerations of persons. Men are pigmies, principles are giants.

The influence and power of the one are circumscribed and evanescent; the other works by night and by day, amid all classes, and in all sections. So we say let the banner cry still be "Measures not men."

## The Depot Fight.

As the details connected with the location of the Los Angeles and Independence Railroad depot on San Pedro street, come to the surface the chapter of incidents becomes both amusing and interesting.

It appears that an effort was made to locate the depot on Temple street and although a considerable ground was offered the railroad company for the purpose, the proposition was not entertained.

The Aliso tract at the river end of Aliso street, which is claimed to be nearer the business center of the city and offering superior depot advantages to the location selected, was suggested and five acres of land offered to the company.

This was refused and the San Pedro street property selected. "Why is this?" asks the innocent community. Rumor with her thousand pipes is blowing as many different versions, causes, reasons and purposes. We are told that the location is a job by which some people expect to realize a handsome sum. Says rumor, a ring was formed for the purpose of first secretly securing the location of the depot on San Pedro street and then buying and bonding all the land in the vicinity that could be got hold of. The plan worked to a charm from the inception to the Mayor. The people sold or bonded their land in bliss-

ful ignorance of the object of the purchasers; the railroad managers accepted or agreed to accept the proposed site, the Council passed the ordinance and then came a hitch—the Mayor bucked. Dame Rumor says this wonderful progress was not the result of a legitimate business transaction. She furnishes us with the name of one Councilman who was offered one thousand dollars if he would vote for the San Pedro location. He was also assured by another individual that there was money for him in the scheme if he voted for it. This same garrulous old girl, Dame Rumor, has given us a great many other bits of information which if true will warrant Colonel JACKSON, general manager of the Los Angeles and Independence railroad, in refusing to accept the location even though the Council passes the ordinance over the Mayor's veto. This will break up if it does not impoverish the ring who have bought up and bonded the land around the proposed depot and as they have taken the advantage of the people who have owned and paid taxes on this land for the past twenty years, the general verdict will be "served them right."

## Woman Suffrage.

While in the centres of activity, wealth and learning, the great truths are enunciated by the statesmen and philosophers of a semi-petrified condition of society renders the practice of the theories impossible. Men shudder at violent innovations in the autonomy of government, and vigorously oppose great changes in the social system. Thus it is the tenets which attract the most intelligent, are suffered to remain without serious disciples in the land of their birth, and the community accepts the doctrine and puts it into practice. In the United States all the theories of the statesman and philosopher have found advocates and been readily engrafted upon the new society. Not among the least important question which has agitated the minds of the great thinkers of the present century is the social status of woman. In the progress of human events she has emerged from the condition of a slave nearly, to that of an equal, but the final step, the complete emancipation of the sex, her elevation to an equal share of the government is far from being accomplished, and, in fact, is so heartily opposed by the great majority of mankind, even in the New World that the weakest demagogues have scarcely considered it worth their advocacy. It remained for Wyoming to put to actual test the question of woman suffrage. That territory carved out of the desert and peopled by a rough class of men in whose breast we should scarcely expect to find a refined appreciation of woman was the first to bestow absolute and perfect equality upon her. In the land just snatched from the grasp of the savage by the hardy pioneer the most delicate question of the day is being put fairly to the test of experience. The world will anxiously watch the effect. The philosopher and the statesman will gaze eagerly for a surer solution of the problem than theory could ever supply. Intellectual women all over the world will anxiously watch the conduct of their sex at the ballot box and in the halls of justice. There shall the world learn whether the administration of the laws has become purer, whether men are elevated in their public conduct as they are in private life by the presence of women, or whether the moral status of woman is limited by her too liberal contact with her baser partner. We are to learn from Wyoming whether man is ennobled or woman debased by her joint proprietorship of freedom. It is a momentous question, and will be settled for the near future at least by the little commonwealth in the Western wilds. We all want a purer government, and none would sanction any movement to demoralize the female sex. Of course the experience of a few months cannot settle the question. On so momentous a problem we desire abundant evidence. While not therefore for a moment claiming that sufficient time has yet elapsed for a fair trial we may nevertheless appropriately call attention to the result of female suffrage thus far, and we are free to say it is beyond our expectations. The Laramie Sentinel points out the changes that have taken place in Wyoming in the last six or seven years, though not claiming that they are altogether due to female suffrage. It points to facts only as follows:

We never had a term of Court here held in a decent and comfortable place, with its proceedings marked throughout with decency and decorum, and divided of everything pertaining to levity and blackguardism, till our ladies were summoned to attend and participate in it.

We never had a grand jury here that boldly and unflinchingly took hold to investigate offenses against decency and morality, and hunt out and bring offenders to punishment, till we had a grand jury composed largely of ladies.

We had several terms of Court, but had scarcely been able to convict or punish a single criminal for any crime, however heinous, through the medium of those Courts, till we got a jury composed largely of women.

We did not have a single election here without drunkenness, rowdiness, quarrelling, fighting and bloodshed, until our wives, mothers, sisters and daughters were permitted to accompany us to the polls. We well remember the time when many a man was dragged away from the polls, losing his right of citizenship rather than encounter the danger and vexation he must meet in order to exercise it.

But all this is changed. Our elections go off as quietly as any other social gathering, no matter how heated a political campaign may be, or how important the issues at stake. And we all point with pride to the result, whether or not we agree as to the cause which has produced it.

Tremendous storms have prevailed all through New Mexico for the past ten days and the town of Las Cruces was nearly destroyed by what is called the bursting of a waterspout. Much damage has also been done to the wheat crop by the continued bad weather.

## LETTER FROM RIVERSIDE.

Gaiety at the Riverside—A silver wedding—A Ball—A Liberal Pastor—A Talented Musician—The Lyceum—Quite a shower—Orange culture—Activity in Real Estate.

EDITOR HERALD:—We lead guilty to a little gaiety during the hot Summer months. While New England people are hurrying from mountain to seashore to find shade and recreation, some of the people here have been cool enough to entertain friends.

## SILVER WEDDING.

One happy couple rejoicing in the twenty-five years of wedded life, invited all Riverside nearly, to see parson Loup make stronger their bonds.

Among other refreshments, cake twenty-five years old, preserved from the first wedding, was passed around, and the manner in which the unmarried guests carefully wrapped up the cake indicated faith in the power of this aged wedding cake to produce almost real dreams of wedded bliss.

## A BALL.

A Ball too in honor of our first brick edifice indicates that Riverside is still alive.

Last night there was a sociable at the Congregational Church, a goodly number present. Conversation and music were the prominent features of the evening. Rev. E. H. Wales, our new Congregationalist Minister was present and actively engaged in promoting the social as well as the musical.

## A TALENTED MUSICIAN.

E. G. Brown Esq. whose musical proficiency is second to none in these regions, was there. Riverside feels proud of Mr. Brown's musical talents and his hearty willingness to loan it to enliven our feasts.

## OUR LYCEUM.

Allow me to add that our Lyceum has revived again with Mr. B. as President and Walter Lyon Secretary with a corps of talented members which must make this institution quite interesting.

## THE LATE RAIN.

We have had a very nice little rain washing the foliage of trees and giving everything verdant a clean healthy look, to some perhaps depending upon the dry feed the rain was not so refreshing. Such is life.

## ORANGE CULTURE.

Quite an interest has been taken among the Fruit Growers of this vicinity in the new variety of Oranges quite recently introduced in Southern California. Many of our orange orchards have been and are being planted with the Konab, St. Michaels, Malta Blood, Acapulco, Valparaiso and Australian seedless. The length of growth which some of these buds have made for the past three months indicate a vigorous variety, if nothing more.

## LAND SALES.

Purchasers are buying up quite rapidly the undisposed and valuable lands of Riverside. Six months will show a great change and progress here.

## Yours,

G. W. GARTON.

would doubtless have brought him to, but the officer prudently refrained, leaving him to the result of a case pending before the Coroner, involving the privileges of policemen in such contingencies. Hoey was committed to the prison hospital, where the wound was found not to be dangerous, though pretty severe.

## MORNING DISPATCHES

2:30 A. M.

[SPECIAL TO THE HERALD.]

Races at the State Fair.

SACRAMENTO, September 20th.—The second race was for a purse of \$600, two mile heats. The starting was by Theo. Winter's b s Ballot Box, R. T. O. Hanton's b f Fannie Hall, R. L. Croy's b m Irene Harding, and H. Welsh's b s Hardwood. The start was even and the race throughout a good one. Irene led to the first half in 53. At the stand in the first mile Ballot Box was ahead by a neck in 1:43, closely followed by Fannie Hall, Hardwood and Irene being neck and neck, and close up at the mile and a half post the little horse had gained many lengths, which he maintained until near the string, when he slowed up for the company of little Irene and Fannie Hall, who came nearly even for the second place, Hardwood being far in the rear. The announcement was Ballot Box first, Fannie Hall second, Irene third, Hardwood fourth; time 3:47.

The second heat was an easy victory for Ballot Box. At the top off he and Irene Harding opened the fight, and when at the half mile in 51 she found further effort useless. She resigned the contest to Fannie Hall, who also made a fruitless effort to gain the front and fell back in a struggle with Irene for the second place, in which she was successful, Ballot Box having generously slowed up to give them a position, without which he would have distanced both. This ended the day's sport and two mile race in favor of Ballot Box, Fannie Hall second, Irene third and third money; time 3:47.

WASHINGTON, Sept. 20th.—The U. S. steamer Powhattan, now at New York, will leave there this week for Port au Prince, Hayti, in accordance with a request from the State Department. During some troubles on the island a short time ago the American minister there gave shelter to some of the parties, in consequence of which their adversaries threatened the Minister, and the Department deemed it expedient to hold a vessel there for protection, if necessary.

Damages by the Storm.

NEW ORLEANS, Sept. 20th.—The steamer Margaret, which left Galveston yesterday morning arrived yesterday at Brashear and reports the East end of the Island washed away and the inhabitants barely escaped, but they are powerless and have lost everything. Thirteen laborers on the breakwater are missing. Vessels in port worked incessantly.

Drafted Ashore.

NEW ORLEANS, Sept. 20.—Steamship Australia, British, shipped her anchor in a hurricane off Galveston, on Thursday, and Friday became unmanageable and drove ashore forty-four miles from Galveston, in ten feet of water, where she remained at last accounts. No lives lost.

What the Attorney General Says.

WASHINGTON, Sept. 20.—Attorney General Pierpont says that the letter to Governor Ames was intended to show that the Federal troops should not be called out except in strict accordance with the constitution and laws after the State had used its own resources; but if forced to the necessity the Executive government would indulge in no leniency toward lawless disturbance of the public peace, or murder of innocent men.

Another Insurrection.

VIENNA, Sept. 19th.—An insurrection has broken out at Tychoval, near Groshowa. The insurgents burned the Turkish guard house and the garrison fled. The insurrection is said to be spreading into Western Bosnia and it is rumored that preparations have been made for a general rising.

CONDENSED TELEGRAMS.

The insurrection in Eastern Herzegovina is increasing.

It is estimated that \$2,000 will cover all losses by the storm in Southern Texas. Commander Morgan's fleet of dredge boats are reported driven ashore and a number wrecked.

Twenty-four French Archbishops and Bishops have issued a circular appealing for the exertions of the Catholics in behalf of the Catholic University in Paris.

The following changes in the Turkish Cabinet are announced: Risi Pacha for Minister of Marine; Kaduberg to be Minister of Public Works.

A New York dispatch of yesterday says: It is expected that the case of Tilton vs. Beecher will be called from the calendar of the City Court this morning, by Judge Reynolds. Mr. Morris of counsel for Tilton, will answer that he will be ready within a few days.

A telegram dated New York, Sept. 20th says: A serious disease has broken out amongst the horses throughout the city. It borders on the nature of the famous epizootic of two years ago. It is calculated that there are 10,000 horses suffering, the symptoms being precisely the same as those manifested when the epizootic first showed itself.

The Richmond Iron Works, at Stockton, upon the Tees, comprising twenty-six furnaces and rolling mills, and employing 300 hands has suspended. The concern is insolvent.

In compliance with the earnest desire of Prince Milan, the deliberations of the committee appointed to consid-

er the address in reply to his speech, will be submitted to the Chamber of Deputies in secret session. The debates in the Chamber will also, at the request of the Prince, be kept secret.

## Angora Goats.

The Sutter Creek Ensign says: Messrs. Carey & Myers have been engaged for several years in raising goats in this and the adjoining county of Calaveras. Mye's range is about four miles from Sutter Creek, and that of Carey is in Salt Spring Valley, in Calaveras, thirty-five miles distant. Latterly their goats have increased to such an extent that the range became overstocked, and they were compelled to reduce their herds. On Saturday last they drove a band through Sutter Creek of 1,000 head, which they intend to take to Southern Oregon to sell. They are of the Angora kind, suitable for breeding, and among them are many fine bucks. The owners inform us that they have found the business of goat breeding a very profitable one. They find a ready market for the mohair in San Francisco at \$1 per pound. From San Francisco the mohair is shipped direct to the alpaca works at Jamestown, N. Y., and there converted into fabrics. As much as 50,000 pounds of mohair has been shipped from this State this season.

## NEW TO-DAY.

WANTED.—A strong, healthy woman as chambermaid, to wait on table, at the Kimball mansion, New High street, near the Congregational church. sept12-1w
